*ALritma, etichettatrice
 automatica high-tech*

*ALline E, in-line labelling
 system for flat and elliptical
 products*

*ALcode, label print/apply unit
 (also linerless)*

*ALprint, SATO printer
 for labels*

At ALTECH we know well how much time, money and commitment it takes to apply one label in an accurate and reliable way: every day our machines apply over 100 million labels all over the world, thus making these products a bit better. For those that will buy them, and those that produce them.

Automatic labellers – sleeving machines - pharma - print & apply – linerless
