

Not all beverage companies use our labellers. But the most important do.

Come and see our references on www.altech.it.

Our ALcodeP labelling systems for pallets have been selected by the most renowned producers of the beverage industry, which have made of AI and traceability a quality instrument. Labelling is indeed a particularly crucial aspect of packaging and logistics, and is not to be taken lightly: that's why they've chosen the professionalism of a partner like ALTECH and its systems.

- ALcodeP labelling equipment for pallets.*
- *Print and apply of two labels according to UCC/EAN 128 standard, with one pallet stop only.*
 - *Closed ergonomic structure, with application carriage moving on ball bearing rails, in-built in the machine basement.*
